## COMPANY MATTERS

### Quarterly Business Review:

The Company conducted its second Quarterly Business Review for the quarter ended June on 24<sup>th</sup> August 2010 at Hubli. All the staff participated and the MD addressed the meeting.

The senior management reviewed the work of each staff and discussed the operational issues. Then group discussions were held among the staff on issues relating to issue of Sukhi Health Cards and while providing health care services to the Sukhi Health Card Holders through the network hospitals and were resolved.

Two day's workshop was held on 25<sup>th</sup> and 26<sup>th</sup> August 2010 at Hubli. On 25<sup>th</sup> August. The website of the company was launched.

### Quarterly Workshop for partner NGOs and Net work Hospitals:

On 25<sup>th</sup> the delegates from partner NGOs and network hospitals participated and discussed the progress made and issues relating to scheme. Delegates from 28 NGOs who are interested in the implementation of the scheme also participated and observed the deliberations. They appreciated the scheme.

### National Seminar on Health Care for the poor.

On 26<sup>th</sup> August 2010 a National Seminar on Health Care for the poor was held for the delegates of NGOs who showed interest in participating in the scheme. At the end of the workshop 15 NGOs confirmed their willingness to implement the scheme. The company subsequently conducted due diligence of 10 NGOs and signed agreement with 5 NGOs covering Belgaum ,

Bijapur, Bagalkot, Chikballapur, Kolar districts under which the NGOs agreed to issue 45000 health cards to their beneficiaries.

The company has great pleasure in welcoming the new partner NGOs to Suddanand Group and wishes them great success in the implementation Suddanand Poorna Arogya Scheme by which they can provide low cost health care services to the poor families being serviced by them.

The company had a series of discussions with Grameen Koota NGO-MFI and we are glad that Grameen Koota has expressed their willingness to implement the scheme.

### Signing of MoU with NGO-MFI's

The names of the NGOs with whom the company signed agreement for the scheme are

1. Margadarshi NGO in Bijapur
2. Shri. Bhuvaneshwari Grameena Mahila Abhivradhi Sangha in Hungund, Bagalkot district.
3. Belgaum Integrated Rural Development Society (BIRDS)
4. Niveditha NGO in Chikballapur district
5. Prerana NGO in Khanapur, Belgaum

### Staff Matters:

The company welcomes the following new staff who joined in the month of August 2010 and wishes them all the best.

Mr. Vikas and Mr. Pradeep as Managers and Miss. Shalini as Office Secretary.

On 24<sup>th</sup> August the company hosted a dinner to all the staff at Basanth Thrupthi International Hotel at Hubli. The staff enjoyed playing games and cultural activities. On 27<sup>th</sup> and 28<sup>th</sup> August the staff in the Head Office and the Program Orientation Officers enjoyed the trip to Goa arranged by the Company.

MoU with MARGADARSHI NGO

MoU with Bhuvaneshwari NGO

MoU with NIVEDITA NGO

SAS & NGOs Coming together to serve the Poor

**SUDDANAND POORNA AROGYA SCHEME OF  
SAS POORNA AROGYA HEALTH CARE PVT.LTD. MYSORE**  
**A Scheme for providing low cost health care services to the urban and rural poor-**

*M.Shripathy Rao*

A number of development programs being implemented by the Central and State Governments and by the NGO-MFIs are intended to improve the socio economic conditions of the poor in India. The economically active poor are also having access to micro finance because of the initiative taken by the Reserve Bank, NABARD and other NGO-MFIs. These interventions are slowly changing the socio economic conditions of the poor.

Despite all these, poor are prone to various types of risk such as natural calamities, financial loss in their occupation, family disputes etc. While the extents of such risks are not frequent, the one risk which very often they encounter is due to ill health. Incidence of sickness in the family of the poor put these families under considerable psychological and financial difficulties due to the problems they face in arranging for the unexpected health care expenses.

SAS Poorna Arogya Health Care Pvt. Ltd. Mysore has been addressing this issue through the Suddanand Poorna Arogya Scheme being implemented in Karnataka since 8 months in collaboration with NGO-MFIs and recognized net work hospitals. The company appreciates the progress made by the NGO-MFIs in reaching out to more than 20000 poor families with more than 60000 health card holders in 8 months. Thanks to the cooperation and encouragement received from NGO-MFIs, Network Hospitals and the beneficiaries of the NGO-MFIs. In this article some details about the extent of out reach are given.

There are 31 districts in Karnataka. SAS covered 10 districts in the first phase viz. Uttara Kannada, Dharwad, Haveri, Bidar, Gulbarga, Davangere, Chitradurga, Thumkur, Mysore and Chamarajnagar districts.

The second phase of issue of health cards is now taken up by the NGO-MFIs in Bijapur, Bagalkot, Belgaum, Chikodi, Chikballapur and Kolar districts. Efforts are on for identifying NGOs in Gadag, Shimoga, Raichur, Hassan, Yadgiri and Ramanagar districts. So in the second phase majority of the districts in Karnataka except Dakshina Kannada, Udupi, Chikmagalur, Bellary, Bangalore Rural, Bangalore Urban and Kodagu would be covered by the end of March 2011.

So far 15 NGO-MFIs and 40 Hospitals have collaborated with SAS in the implementation of the scheme. Every day about 30 to 50 Card holders get consultancy services in 22 recognized hospitals as out patients by paying just Rs.10 as consultancy fee per visit. They also get 20% discount in the expenses incurred for diagnosis tests. About 10% of them have been requiring treatment as in patients for which they get cashless treatment.

Imagine a poor family facing a situation where a minor surgery costing ₹ 10000 to ₹ 15000 needs to be done. How they will manage to arrange the amount within few hours or a day. They have no option than selling their assets or borrowing money at huge interest. To come out of this financial and psychological shock they will need considerable time. All the efforts of the NGO-MFIs and the government programs to improve their socio economic situation may not fully succeed if this important aspect of provision of low cost health care services to the poor is not urgently addressed. Yes, there are schemes introduced by the Central and state governments and by a few NGO-MFIs to address this issue. But looking at the magnitude of the problem faced by the poor why not there can be private health care provider and NGO-MFI partnership to supplement the efforts of the Government.

When the poor beneficiaries of the NGO-MFIs and their family members become SUKHI Health Card Holders under the Suddanand Poorna Arogya Scheme they will not undergo such psychological and financial hazards. In a family where at least 3 persons become card holders by paying ₹480/- they are eligible for ₹ 15000 worth health care services when any one of the card holder or every card holder needs treatment as inpatient in any of the net work hospitals. This reduces the psychological and financial burden of the family in such eventualities. In addition all the 3 card holders can visit the network hospitals throughout one year and get treated as out patients for ₹10 consultancy fee per visit.

This is confirmed by many of our SUKHI health card holders who are facing such situations but are able to manage such situations with the support from the NGO-MFIs, the SUKHI Help Desk Executives appointed in the 22 net work hospitals and the expert BPO Doctors of SAS and Doctors available in the network hospitals under the scheme. SAS has been publishing what they say about the scheme in the monthly news letter.

Let the poor families who do not have such health care services become SUKHI Card Holders and be served by the NGO-MFIs and the private hospitals as a humane service to the sick and the suffering millions. With this intension SAS has set a task of covering 5 million individual poor by 2015. SAS welcomes the NGO-MFIs and the private hospitals to join hands with us to serve the sick and the suffering millions in the urban and rural areas.

A map showing the districts covered so far is given in the next page Shimoga and Raichur districts we have recognized hospitals but yet to have NGO-MFIs for collaboration. SAS welcomes the NGO-MFIs in these districts to come forward for the implementation the scheme. A Programme has been drawn for the issue of 40,000 health cards in the next four months.
